# Installation Guide

*Thank you for purchasing Power Music.*

You will require a Product Key to:
- Install Power Music Professional
- Upgrade Power Music Mac from the trial version

Your Product Key will either be supplied electronically by email or on a Product Key Card.

## Keep your Product Key safe!

To help you manage your installations of Power Music visit the "My Product Key" page on the Power Music website.

### • INSTALLING POWER MUSIC PROFESSIONAL (Windows)
1. An internet connection is required to download, install and register Power Music Professional.
2. Go to **powermusicsoftware.com/download** and follow the link to download Power Music Professional.
3. Run the **PMProfessional.exe** file you have downloaded. If your browser displays any warning messages please ignore them – there is no risk installing Power Music.
4. A number of End User Licence Agreements (EULA) will be displayed. You must accept these to continue.
5. Depending on the speed of your PC, the installation process may take a few minutes. Additional components may be downloaded.
6. When installation is complete, a shortcut will be placed on the desktop and in the Start Menu.
7. Launch Power Music. The first time you run Power Music, you will be asked to register your copy of Power Music. Enter all the details including the Product Key. Power Music will not run unless it is registered.
8. To keep Power Music on the taskbar, launch Power Music, right click on the Power Music icon and "Pin this program to taskbar"

### • INSTALLING POWER MUSIC MAC (macOS)
1. An internet connection is required to download, install and register Power Music Mac.
